
BIG KAHUNA SOLUTION

1. Turn puzzle around to face you, so that it looks like Figure 1.
2. Lift heavy ring off legs, angling ring so that one side goes between one hand and body, and the other side goes around the outside of the opposite hand.
3. Tip ring, one side at a time, through the collar, so that the ring is above the collar. See Figure 2.
4. Bring ring up arm, over head, down opposite arm, and past hand. See Figure 3.
5. Leave ring in position, as in Figure 3. If needed, adjust puzzle so that oval and small attached rings are not twisted. You should be able to see through the oval, and not see it from the side.
6. Lift legs, with feet first, through side of collar that is opposite from the ring side, until leg assembly completely passes collar. *Big Kahuna is now head over heels!*
7. Turn leg assembly over, toward ring side, to remove twist so that you can see through the oval again.
8. Hold legs and head together; bring ring around bottom of body and up outside of opposite hand.
NOTE: Object ring is slightly oval in shape; find the easiest spot when bringing past hand.

CHECKPOINT: Puzzle should now look like Figure 4.

NOTE: *Hang Loose!* If there is resistance bringing ring through collar or around hand, try twisting head or flexing arms slightly (Big Kahuna's head and arms, not your own).

9. Bring ring over collar, and rest it on top of the collar. See Figure 5.
10. Tip ring through the collar, and around outside of hand. Remove from bottom of body.

Figure 2

Figure 3

Figure 4

Figure 5

REASSEMBLY: Hold puzzle as in Figure 5. Pass object ring up to collar, with one side between hand and body and the other side around the opposite hand, then pivot ring through inside of the collar.

When ring is on top of collar, bring it down around the outside of collar and hand, and past bottom of body. Leave ring alone, then bring legs down through the collar (feet last). Puzzle should now look like Figure 3.

Pass ring over head and rest on top of collar. Tip ring through inside of collar (see Figure 2), past outside of hand, then back to legs.
